To ACSC Board Members:

*The teachers of Attica Elementary School would like to express to the members of the Board our appreciation for Mr. Marshall and Mr. Goodwin. When they met with several of us in late August, their genuine understanding and receptiveness toward our concerns made us feel that we can safely share our thoughts and feelings. We would like to express our appreciation for their willingness to have an ongoing dialogue between teachers and administration. We feel the recent changes have allowed us to focus our time and energy toward the needs of our students. We specifically want to mention the adapted morning duty schedule, modified recess schedule, Harmony lesson plan expectations, and an overall respect for the demands on our time. We are also grateful for the emphasis on positive communication.*
